

Walking to school is great because

Junior Road Safety Officer - Spring Newsletter

Welcome to our second JRSO newsletter.

During the Autumn term we were busy sharing how to stay safe on the roads. At the infant school the JRSO Team delivered an assembly to help us remember to **Stop, Look and Listen!**

At the Junior School, the JRSO team delivered class assemblies on Road Safety for Road Safety week. They also attended Open Evening and spoke to Year 2 children and their parents about how they can keep safe on the roads and any concerns they had.

Walking to school is a great way to get in your daily exercise and have a chat with your family and friends. It also reduces air pollution and congestion on the roads. This term we will be thinking about all the benefits to finding other ways to travel to school. Find out more from your JRSO.

On the back of the newsletter we have a frame for you to design a poster to explain why walking to school is great! Return your design to your JRSO and a selection will be displayed on our notice boards.

Good luck!
